

## OVERVIEW

The office of study abroad, with SCAD School of Fine Arts, is pleased to offer *Hong Kong: Exploring Place*. This unique offering is tailored to painting students, and designed to expand their creative potential. *Exploring Place* will heighten student creative possibilities in one of the world's truly great international cities. From an ever-expanding contemporary art scene to a rich history and culture, students will explore and artistically respond to Hong Kong.

Highlights of this excursion include interactions with arts professionals and visiting significant historical sites, temples and museums. Through a variety of field trips, technical workshops, demonstrations and discussions, students will discover new creative directions for their work. Studio space will be provided to allow students the opportunity to produce artwork inspired by the city and its culture before returning home.
